**THIS DRAFT DOES NOT CONSTITUTE AN OFFER  
NOR A COMMITMENT TO EXTEND AN OFFER  
BACKGROUND**

Grantee desires to use state-owned aquatic lands located in King County, Washington for the purpose of discharging effluent from an outfall pipeline. Grantee has obtained the necessary regulatory authorizations for this purpose including, but not limited to, a National Pollutant Discharge Elimination System (“NPDES”) Permit.

State is willing to grant an easement for a term to Grantee in reliance upon Grantee’s promises to operate the outfall and conveyance system in compliance with all laws and permits and in the manner as described in all regulatory authorizations.

State’s goals are to promote water re-use and reduce reliance on in-water disposal of waste effluent, storm water, and other discharges that affect the use and environmental conditions of state-owned aquatic lands and associated biological communities.

THEREFORE, the Parties agree as follows:

**SECTION 1 GRANT OF EASEMENT**

**1.1 Easement Defined.**

- (a) State grants and conveys to Grantee a nonexclusive in gross easement, subject to the terms and conditions of this agreement, over, upon, and under those beds of navigable waters and 1st class shorelands of the South Fork Snoqualmie River within King County legally described in Exhibit A (“Easement Property”). In this agreement, the term “Easement” means this agreement and the rights granted.
- (b) This Easement is subject to all valid interests of third parties noted in the records of King County, or on file in the Office of the Commissioner of Public Lands, Olympia, Washington; rights of the public under the Public Trust Doctrine or federal navigation servitude; and treaty rights of Indian Tribes.
- (c) This Easement does not include any right to harvest, collect or damage any natural resources, including, but not limited to, aquatic life or living plants; any water rights; any mineral rights; or any right to excavate or withdraw sand, gravel, or other valuable materials.
- (d) This Easement is not exclusive. State may enter and use the Easement Property for any purpose or permit others to enter and use the Easement Property for any purpose so long as such use does not unreasonably interfere with the rights granted herein.

**1.2 Survey and Easement Property Descriptions.**

- (a) Grantee’s obligation to provide a true and accurate description of the Easement Property, and the location of the Improvements existing on the Easement Property is a material term of this Easement. Grantee warrants that the legal description

**THIS DRAFT DOES NOT CONSTITUTE AN OFFER  
NOR A COMMITMENT TO EXTEND AN OFFER**

provided in Exhibit A is a true and accurate description of the Easement Property and the location of the Improvements existing on the Easement Property.

- (b) Unless State has given Grantee written authorization to use such lands, Grantee's use of any state-owned aquatic lands outside the Easement Property boundaries is a material breach of this Easement and State may seek remedies under Section 14 of this Easement in addition to any other remedies afforded by law or equity or otherwise.
- (c) Grantee shall submit an updated record of survey for State's acceptance within three hundred and sixty-five days (365) days of the Commencement Date. Upon State's written acceptance of the updated record of survey, the updated record of survey shall supersede the record of survey referenced in Exhibit A. The specific location of the Easement Property shall be deemed to be as shown on the updated record of survey.
- (d) Grantee's submission of the updated record of survey shall constitute a warranty that the updated record of survey is a true and accurate description of the Easement Property and the as-built location of all Improvements on the Easement Property. Grantee's obligation to provide a true and accurate description of the Easement Property and the as-built location of Improvements on the Easement Property in the updated record of survey is a material term of this Easement.
- (e) At Grantee's expense, and no later than thirty (30) days after receiving State's written acceptance of the updated record of survey, Grantee shall record the updated record of survey in the County in which the Property is located. Grantee shall provide State with recording information, including the date of recordation and the file number, within fifteen (15) days after recording the [updated] record of survey.

**1.3 Condition of Easement Property.** State makes no representation regarding the condition of the Easement Property, Improvements located on the Easement Property, the suitability of the Easement Property for Grantee's Permitted Use, compliance with governmental laws and regulations, availability of utility rights, access to the Easement Property, or the existence of hazardous substances on the Easement Property.

## **SECTION 2 USE**

- (c) Grantee shall immediately notify State if Grantee breaches any of the terms and conditions of this Easement.

- (e) Grantee's compliance with the restrictions in this Paragraph 2.2 does not limit Grantee's liability under any other provision of this Easement or the law.

**2.3 Conformance with Laws.** Grantee shall keep current and comply with all conditions and terms of any permits, licenses, certificates, regulations, ordinances, statutes, and other government rules and regulations regarding Grantee's use of the Easement Property.

When required by applicable law or regulation Grantee shall facilitate amendment of official navigational charts to indicate existence and location of submerged Improvements.

**2.6 Amendment Upon Change of Permit Status.** State reserves the right to amend the terms and conditions of this Easement whenever any regulatory authority (1) modifies a permit in a manner affecting the provisions of this Easement; or (2) allows for a change in the manner of outfall operation including, but not limited to, a change in the type, quality, or quantity of discharge. - (a) Grantee shall immediately notify State if Grantee becomes aware of any of the following:
  - (1) A release or threatened release of Hazardous Substances;
  - (2) Any new discovery of or new information about a problem or liability related to, or derived from, the presence of Hazardous Substances;

- (b) Grantee's duty to report under Paragraph 8.6(a) extends to lands described in Paragraph 8.2(a), and to any other property used by Grantee in conjunction with the Easement Property if a release of Hazardous Substances on the other property could affect the Easement Property.
- (c) Grantee shall provide State with copies of all documents Grantee submits to any federal, state, or local authorities concerning environmental impacts or proposals relative to the Easement Property. Documents subject to this requirement include, but are not limited to, applications, reports, studies, or audits for National Pollutant Discharge Elimination System permits (NPDES); United States Army Corps of Engineers permits; State Hydraulic Project Approvals (HPA); State Water Quality Certifications; Substantial Shoreline Development permits; and any reporting necessary for the existence, location, and storage of Hazardous Substances on the Easement Property.

**8.7 Indemnification.**

- (a) Grantee shall fully indemnify, defend, and hold harmless State from and against any Liabilities that arise out of, or relate to:
  - (1) The use, storage, generation, processing, transportation, handling, or disposal of any Hazardous Substance by Grantee and affiliates occurring whenever Grantee uses or has used the Easement Property;

- (d) If Grantee fails to exercise care as described in Paragraph 8.2(b)(2), Grantee shall fully indemnify, defend, and hold harmless State from and against Liabilities arising from the acts or omissions of third parties in relation to the release or threatened release of Hazardous Substances.

**8.8 Reservation of Rights.**

- (b) The Parties expressly reserve all such rights, claims, immunities, and defenses that either Party may have against third parties. Nothing in this Section 8 benefits or creates rights for third parties.

**8.9 Cleanup.**

- (a) If Grantee's act, omission, or breach of obligation under Paragraph 8.4 results in a release of Hazardous Substances that exceeds the threshold limits of any applicable regulatory standards, Grantee shall, at Grantee's sole expense, promptly take all actions necessary or advisable to clean up the Hazardous Substances in accordance with applicable law.
- (b) If a cleanup is eligible for the Washington State Department of Ecology's Voluntary Cleanup Program, Grantee may undertake a cleanup of the Easement Property pursuant to the Washington State Department of Ecology's Voluntary Cleanup Program, provided that Grantee cooperates with the Department of Natural Resources in development of cleanup plans. Grantee shall not proceed with Voluntary Cleanup without the Department of Natural Resources' approval of final plans. Nothing in the operation of this provision is an agreement by the Department of Natural Resources that the Voluntary Cleanup complies with any laws or with the provisions of this Easement. Grantee's completion of a Voluntary Cleanup is not a release from or waiver of any obligation for Hazardous Substances under this Easement.

**8.10 Sampling by State, Reimbursement, and Split Samples.**

- (a) State may conduct sampling, tests, audits, surveys, or investigations ("Tests") of the Easement Property at any time to determine the existence, scope, or effects of Hazardous Substances.

Grantee shall promptly reimburse State for all costs associated with such Tests, provided State gave Grantee thirty (30) days' advance notice in nonemergencies, and reasonably practical notice in emergencies.

- (c) In nonemergencies, Grantee is entitled to obtain split samples of Test samples, provided Grantee gives State written notice requesting split samples at least ten (10) days before State conducts Tests. Upon demand, Grantee shall promptly reimburse State for additional cost, if any, of split samples.
- (d) If either Party conducts Tests on the Easement Property, the conducting Party shall provide the other Party with validated final data and quality assurance/quality control/chain of custody information about the Tests within sixty (60) days of a written request by the other Party, unless Tests are part of a submittal under Paragraph 8.6(c) in which case Grantee shall submit data and information to State without written request by State. Neither party is obligated to provide any analytical summaries or the work product of experts.

**SECTION 9 NATURE OF ESTATE AND ASSIGNMENT**

This Easement shall be in gross for the sole benefit of Grantee's use associated with the Permitted Use. This Easement shall not run with the land. This Easement is indivisible. Grantee shall not sell, convey, mortgage, assign, pledge, grant franchises for, or otherwise transfer or encumber any part of Grantee's interest in this Easement or any part of Grantee's interest in the Easement Property without State's prior written consent, which shall be at State's sole discretion. State reserves the right to reasonably change the terms and conditions of this Easement upon State's consent to requests made under this Section 9.

- (d) No damages or fees paid by Grantee to State under other provisions of this Easement are a setoff against Grantee's obligation to indemnify under this Paragraph 10.1.
- (e) State shall not require Grantee to indemnify, defend, and hold harmless State, its employees, officials, officers, and agents for a Claim caused solely by or resulting solely from the negligence or willful act of State or State's employees, officials, officers, or agents.
- (f) Grantee specifically and expressly waives any immunity that may be granted under the Washington State Industrial Insurance Act, Title 51 RCW in connection with its obligation to indemnify, defend, and hold harmless State and its employees, officials, officers, and agents. Further, Grantee's obligation under this Easement to indemnify, defend, and hold harmless State and its employees, officials, officers, and agents shall not be limited in any way by any limitation on amount or type of damages, compensation, or benefits payable to or for any third party under the workers' compensation acts.
- (g) Only to the extent RCW 4.24.115 applies and requires such a limitation, if a Claim is caused by or results from the concurrent negligence of (a) State or State's employees, officials, officers, or agents and (b) the Grantee or Grantee's agents or employees, these indemnity provisions shall be valid and enforceable only to the extent of the negligence of the Grantee and those acting on its behalf.
- (h) Section 8, Environmental Liability/Risk Allocation, exclusively shall govern Grantee's liability to State for Hazardous Substances and its obligation to indemnify, defend, and hold harmless State for Hazardous Substances.

**10.2 Insurance Terms.**

  - (1) Grantee certifies that on the Commencement Date of this Easement it is a member of a self-insured risk pool for all the liability exposures, its self-insurance plan satisfies all State requirements, and its self-insurance plan provides coverage equal to that required in this Paragraph 10.2 and by Paragraph 10.3, Insurance Types and Limits. Grantee shall provide to State evidence of its status as a member of a self-insured risk pool. Upon request by State, Grantee shall provide a written description of its financial condition and/or the self-insured funding mechanism. Grantee shall provide State with at least thirty (30) days' written notice prior to any material changes to Grantee's self-insured funding mechanism. If during the Term Grantee's self-insurance plan fails to provide coverage equal to that required in Paragraph 10.2 and Paragraph 10.3 of this Easement, Grantee shall procure additional commercial insurance coverage to meet the requirements of this Easement.   - (5) All insurance provided in compliance with this Easement must be primary as to any other insurance or self-insurance programs afforded to or maintained by State.
- (b) Waiver.
- (1) Grantee waives all rights against State for recovery of damages to the extent insurance maintained pursuant to this Easement covers these damages.
  - (2) Except as prohibited by law, Grantee waives all rights of subrogation against State for recovery of damages to the extent that they are covered by insurance maintained pursuant to this Easement.
- (c) Proof of Insurance.

  - (2) The certificate(s) of insurance must reference the Easement number.
  - (3) Receipt of such certificates, endorsements, or policies by State does not constitute approval by State of the terms of such policies.
- (d) State must receive written notice before cancellation or non-renewal of any insurance required by this Easement, as follows:
- (1) Insurers subject to RCW 48.18 (admitted and regulated by the Insurance Commissioner): If cancellation is due to non-payment of premium, provide State ten (10) days' advance notice of cancellation; otherwise, provide State forty-five (45) days' advance notice of cancellation or non-renewal.

  - (2) Procure and maintain comparable substitute insurance and pay the premiums. Upon demand, Grantee shall pay to State the full amount paid by State, together with interest at the rate provided in Paragraph 6.3 from the date of State's notice of the expenditure until Grantee's repayment.
- (g) General Terms.
  - (1) State does not represent that coverage and limits required under this Easement are adequate to protect Grantee.
  - (2) Coverage and limits do not limit Grantee's liability for indemnification and reimbursements granted to State under this Easement.
  - (3) The Parties shall use any insurance proceeds payable by reason of damage or destruction to Easement Property first to restore the Easement Property, then to pay the cost of the reconstruction, then to pay State any sums in arrears, and then to Grantee.

### **10.3 Insurance Types and Limits.**

- (a) General Liability Insurance.
  - (1) Grantee shall maintain commercial general liability insurance (CGL) or marine general liability (MGL) covering claims for bodily injury, personal injury, or property damage arising on the Easement Property and/or arising out of the Permitted Use and, if necessary, commercial umbrella insurance with a limit of not less than One Million Dollars (\$1,000,000) per each occurrence. - (b) Workers' Compensation.
  - (1) State of Washington Workers' Compensation.
    - (i) Grantee shall comply with all State of Washington workers' compensation statutes and regulations. Grantee shall provide workers' compensation coverage for all employees of Grantee. Coverage must include bodily injury (including death) by accident or disease, which arises out of or in connection with the Permitted Use or related activities.
    - (ii) If Grantee fails to comply with all State of Washington workers' compensation statutes and regulations and State incurs fines or is required by law to provide benefits to or obtain coverage for such employees, Grantee shall indemnify State. Indemnity shall include all fines; payment of benefits to Grantee, employees, or their heirs or legal representatives; and the cost of effecting coverage on behalf of such employees.
  - (2) Longshore and Harbor Workers' and Jones Acts. The Longshore and Harbor Workers' Act (33 U.S.C. Section 901 *et. seq.*) and/or the Jones Act (46 U.S.C. NOR A COMMITMENT TO EXTEND AN OFFER**

- (ii) Four Million Dollars (\$4,000,000) general aggregate or policy limit, if any.
- (2) Such insurance may be provided on an occurrence or claims-made basis. If such coverage is obtained as an endorsement to the CGL or is provided on a claims-made basis, the following additional conditions must be met:
  - (i) The policy must contain no retroactive date, or the retroactive date must precede the Commencement Date of the Easement.
  - (ii) Coverage must either be continuously maintained for a period of five (5) years following the Termination Date of the Easement, or an extended reporting period of at least five (5) years following the Termination Date of the Easement shall be purchased.
- (e) **Property Insurance.**
  - (1) Grantee shall buy and maintain property insurance covering all real property and fixtures, equipment, Improvements and betterments (regardless of whether owned by Grantee or State). Such insurance must be written on an all risks basis and, at minimum, cover the perils insured under ISO Special Causes of Loss Form CP 10 30, and cover the full replacement cost of the property insured. Such insurance may have commercially reasonable deductibles. Any coinsurance requirement in the policy must be waived.

The Parties shall use insurance proceeds in accordance with Paragraph 10.2(g)(3).
  - (4) When sufficient funds are available, using insurance proceeds described above, the Parties shall continue with reasonable diligence to prepare plans and specifications for, and thereafter carry out, all work necessary to:
    - (i) Repair and restore damaged Improvements to their former condition, or
    - (ii) Replace and restore damaged Improvements with new Improvements on the Easement Property of a quality and usefulness at least equivalent to, or more suitable than, damaged Improvements.
- (f) **Builder's Risk Insurance.**
  - (1) Grantee shall procure and maintain in force, or require its contractor(s) to procure and maintain in force, builder's risk insurance on the entire work

during the period construction is in progress and until completion of the project and acceptance by State. Such insurance must be written on a completed form and in an amount equal to the value of the completed Improvements, subject to subsequent modifications to the sum. The insurance must be written on a replacement cost basis. The insurance must name Grantee, all contractors, and subcontractors in the work as insured.

  - (iv) Scaffolding, falsework, and temporary buildings located on the Easement Property; and
  - (v) The cost of removing debris, including all demolition as made legally necessary by the operation of any law, ordinance, or regulation.
- (3) Grantee or Grantee's contractor(s) is responsible for paying any part of any loss not covered because of application of a deductible contained in the policy described above.
- (4) Grantee or Grantee's contractor(s) shall buy and maintain equipment breakdown insurance covering insured objects during installation and until final acceptance by permitting authority. If testing is performed, such insurance must cover such operations. The insurance must name Grantee, all contractors, and subcontractors in the work as insured.

**10.4 Financial Security.**

- (a) On the Commencement Date of this Easement, Grantee is not required to procure and maintain a corporate security bond or other financial security ("Security"). During the Term, State may require Grantee to procure and maintain Security upon any of the events listed in Paragraph 10.4(c)(1). Grantee's failure to maintain the Security in the required amount during the Term constitutes a breach of this Easement.
- (b) All Security must be in a form acceptable to State.
  - (1) Bonds must be issued by companies admitted to do business within the State of Washington and have a rating of A-, Class VII or better, in the most recently published edition of A.M. - (3) Savings account assignments, if approved by State, must allow State to draw funds at will.
- (c) Adjustment in Amount of Security.
  - (1) State may require an adjustment in the Security amount:
    - (i) As a condition of approval of assignment of this Easement,
    - (ii) Upon a material change in the condition or disposition of any Improvements, or
    - (iii) Upon a change in the Permitted Use.
  - (2) Grantee shall deliver a new or modified form of Security to State within thirty (30) days after State has required adjustment of the amount of the Security.
- (d) Upon any breach by Grantee in its obligations under this Easement, State may collect on the Security to offset the liability of Grantee to State. Collection on the Security does not (1) relieve Grantee of liability, (2) limit any of State's other remedies, (3) reinstate the Easement or cure the breach or (4) prevent termination of the Easement because of the breach.

## **SECTION 11 MAINTENANCE AND REPAIR**

**11.1 State's Repairs.** State shall not be required to make any alterations, maintenance, replacements, or repairs in, on, or about the Easement Property, or any part thereof, during the Term.

**11.2 Grantee's Repairs and Maintenance.**

- (a) Grantee shall, at its sole cost and expense, keep and maintain the Easement Property and all Grantee-Owned Improvements in good order and repair, in a clean, attractive, and safe condition. Grantee shall repair all damage caused or permitted by Grantee to Improvements Owned by Others on the Easement Property.
- (b) Grantee shall, at its sole cost and expense, make any and all additions, repairs, alterations, maintenance, replacements, or changes to the Easement Property or to any Grantee-Owned Improvements on the Easement Property that may be required by any public authority having jurisdiction over the Easement Property and requiring it for public health, safety, and welfare purposes.
- (c) Except as provided in Paragraph 11.2(d), all additions, repairs, alterations, maintenance, replacements, or changes to the Easement Property and to any Grantee-Owned Improvements on the Easement Property shall be made in accordance with, and ownership shall be governed by, Section 7, above.

**THIS DRAFT DOES NOT CONSTITUTE AN OFFER  
NOR A COMMITMENT TO EXTEND AN OFFER**

- (d) Routine maintenance and repair are acts intended to prevent a decline, lapse, or cessation of the Permitted Use and associated Grantee-Owned Improvements. Routine maintenance or repair that does not require regulatory permits does not require authorization from State pursuant to Section 7.
- (e) Upon completion of maintenance activities, Grantee shall remove all debris and restore the Easement Property to the condition prior to the commencement of Work.

**SECTION 12 DAMAGE OR DESTRUCTION**

**12.1 Damage to Improvements.**

- (a) In the event of any damage to or destruction of any Improvements on the Easement Property, Grantee shall immediately notify State, with subsequent written notice to State within five (5) days.
- (b) Grantee shall be solely responsible for any reconstruction, repair, or replacement of any Grantee-Owned Improvements. If Grantee elects not to reconstruct, repair, or replace all or a portion of any damaged Improvements, Grantee shall promptly remove any damaged or destroyed Improvements and restore the Easement Property. Any reconstruction, repair, or replacement of Improvements is governed by Section 7 Improvements, Personal Property, and Work, and Section 11, Maintenance and Repair, and any Additional Obligations in Exhibit B.
- (c) If Grantee is in breach of this Easement at the time damage or destruction occurs to Grantee-Owned Improvements, State may elect to terminate the Easement without giving Grantee an opportunity to cure, and State may retain any insurance proceeds payable as a result of the damage or destruction.

**12.2 Damage to Land or Natural Resources**

- (a) In the event of any damage to or destruction to the land or natural resources on the Easement Property, Grantee shall immediately notify State, with subsequent written notice to State within five (5) days. In the event of any damage or destruction to land or natural resources on adjacent state-owned aquatic lands that is attributable to Grantee's use of the Property, to the Permitted Use, or to related activities, Grantee shall immediately notify State, with subsequent written notice to State within five (5) days.
- (b) Grantee, at Grantee's sole cost, shall remedy any damages to land or natural resources on the Easement Property and adjacent state-owned aquatic lands that are attributable to Grantee's use of the Property, the Permitted Use, or related activities, in accordance with a plan approved by State. Grantee shall also compensate State for any lost or damaged natural resource values in accordance with Paragraph 12.2(c).
- (c) Compensation for lost resource values:

**THIS DRAFT DOES NOT CONSTITUTE AN OFFER  
NOR A COMMITMENT TO EXTEND AN OFFER**

- (1) If damages to the land or natural resources result in lost or damaged natural resource values, Grantee shall compensate State with (1) monetary compensation; (2) the completion of a project approved by State that includes replacing, enhancing, or otherwise providing in-kind habitats, resources, or environments on other state-owned aquatic lands in order to offset the damage and impacts; or (3) a mixture of both monetary compensation and a project. State shall have the discretion to determine if Grantee will compensate with monetary compensation, a project, or both. If State requires monetary compensation, the value of damages shall be determined in accordance with Paragraph 12.2(c)(2).
- (2) If State requires monetary compensation under Paragraph 12.2(c)(1), unless the Parties otherwise agree on the value, a three-member panel of professional appraisers or resource economists will determine the measure of lost resource values, and issue a written decision. The appraisers or resource economists shall be qualified to assess economic value of natural resources. State and Grantee each shall appoint and compensate one member of the panel. By consensus, the two appointed members shall select the third member, who will be compensated by State and Grantee equally. The panel shall base the calculation of compensation on generally accepted valuation principles. The written decision of the majority of the panel shall bind the Parties.
- (d) If damage to land or natural resources on the Easement Property or adjacent state-owned aquatic lands are attributable to Grantee's use of the Property, to the Permitted Use, or to related activities, or if such damage occurs when Grantee is in breach of the Easement, State may elect to terminate the Easement in accordance with Section 14. If State elects to terminate the Easement, Grantee is still responsible for restoring any damages to land or natural resources on the Easement Property and adjacent state-owned aquatic lands, and for compensating State for any lost resource values in accordance with Paragraph 12.2(c). State may retain any insurance proceeds payable as a result of the damage or destruction.
- (e) State may, with or without terminating the Easement, at the sole expense of Grantee, remedy any damages and complete a project that offsets lost or damaged natural resource values. If State takes any such actions, upon demand by State, Grantee shall pay all costs incurred by State.

**12.3 State's Waiver of Claim.** State does not waive any claims for damage or destruction of the Easement Property or adjacent state-owned aquatic lands unless State provides written notice to Grantee of each specific claim waived.

**12.4 Insurance Proceeds.** Grantee's duties under Paragraphs 12.1 and 12.2 are not conditioned upon the availability of any insurance proceeds to Grantee from which the cost of repairs may be paid. The Parties shall use insurance proceeds in accordance with Paragraph 10.2(g)(3).

**THIS DRAFT DOES NOT CONSTITUTE AN OFFER  
NOR A COMMITMENT TO EXTEND AN OFFER**

**SECTION 13 CONDEMNATION**

In the event of condemnation, the Parties shall allocate the condemnation award between State and Grantee based upon the ratio of the fair market value of (1) Grantee's rights in the Easement Property and Grantee-Owned Improvements and (2) State's interest in the Easement Property, the reversionary interest in Grantee-Owned Improvements, if any, and State-Owned Improvements, if any. In the event of a partial taking, the Parties shall compute the ratio based on the portion of Easement Property or Improvements taken. If Grantee and State are unable to agree on the allocation, the Parties shall submit the dispute to binding arbitration in accordance with the rules of the American Arbitration Association.

**SECTION 14 REMEDIES AND TERMINATION**

**14.1 Termination by Breach.** State may terminate this Easement upon Grantee's failure to cure a breach of the terms and conditions of this Easement. Unless otherwise stated in this Easement, State shall provide Grantee written notice of breach, and Grantee shall have sixty (60) days after receiving the notice to cure the breach. State may extend the cure period if breach is not reasonably capable of cure within sixty (60) days. This sixty (60) day cure period does not apply where State terminates this Easement under Paragraph 10.2(f) or Paragraph 12.1(c).

**14.2 Termination by Nonuse.** If Grantee does not use the Easement Property for a period of three (3) successive years, this Easement terminates without further action by State and Grantee's rights revert to State. Grantee shall still be responsible for complying with all end of Term requirements.

## EXHIBIT B

### 1. DESCRIPTION OF PERMITTED USE

A. **Existing Facilities.** This is a new 30-year Outfall Easement to authorize continued operation and maintenance of a wastewater outfall on the South Fork Snoqualmie River by City of North Bend. The North Bend Wastewater Treatment Plant (WWTP) was originally constructed as a primary treatment facility in 1954. The existing outfall was installed in 1978 when the WWTP was upgraded to provide secondary treatment. This outfall was previously authorized under Aquatic Lands Lease 20-012834, which expired in June 2000. Wastewater discharges from this facility are authorized under NPDES Permit WA-0029351, which was most recently renewed in February 2019. The North Bend WWTP has a design flow of 2.6 mgd and an average monthly maximum flow of 1.2 mgd. The facility discharges secondary treated, disinfected effluent through a 21-inch reinforced concrete pipe that feeds into a diffuser structure which releases effluent by dispersed flow into the river and onto state-owned shorelands. The diffusion structure includes a concrete basin and a concrete diffuser wall with eight rows of ports constructed with 8-inch masonry blocks. The diffusion structure is surrounded by a cobble filter that protects the structure and distributes effluent flow.

The North Bend WWTP outfall is located on the right bank near River Mile 2 of the South Fork Snoqualmie River, just north of the Bendigo Blvd N Bridge. Surrounding land use is moderate density residential and forested. The WWTP collection system primarily services residential customers, with approximately 25% of connections servicing commercial customers. Water depths in the vicinity of the outfall vary between approximately 2 feet at low water and 20 feet at high water. Sediments are primarily sand and gravel, and the riverbanks consist of levees protected by rip rap. Average discharge in the river mainstem is 80 cfs at this location, and the flow in the side channel where the outfall discharges ranges between approximately 2.5 fps at low flow and 25 fps at high flow. The diffuser structure is located entirely above the water surface during normal river flows. However, during flood flows the diffuser structure may submerge and effluent may discharge through the diffuser manhole. There are no salmon present in the South Fork Snoqualmie River due to the downstream migration barrier created by Snoqualmie Falls. Priority habitat is designated for cutthroat trout, northern spotted owl, and elk. Riparian vegetation consists of a mix of native and non-native species, including alder, maple, cedar, hemlock, cottonwood, Himalayan blackberry, and knotweed. Sediments are primarily sand and gravel, and the shoreline is comprised of levees armored with rip rap. There are no documented sediment quality impairments or sediment cleanup sites in the vicinity. Water quality impairments are documented for temperature, bacteria, and dissolved oxygen. TMDLs have been developed for temperature, dissolved oxygen,

NOR A COMMITMENT TO EXTEND AN OFFER**

bacteria, and pH. The facility is subject to Wasteload Allocations for NBOD, CBOD, and temperature.

A 96-inch manhole cover is also present within the easement area, and it appears that a 12-inch concrete stormwater outfall with a flap gate extending 34 feet from the levee face is also present just north of the wastewater outfall. Facility effluent did not consistently comply with permit limits during the previous permit term. The collection system is known to have ongoing inflow and infiltration issues, and much of the existing treatment infrastructure has reached the end of its service life. The current NPDES permit includes a Schedule of Compliance requiring significant upgrades to the treatment facility within the next five years. Required work includes upgrades to existing clarifiers, construction of a new clarifier, replacement of the UV disinfection system, construction of a storage tank for temperature mitigation, and installation of a pH adjustment system. Changes to the manhole cover on state-owned aquatic shorelands are also proposed as part of facility upgrade work. Proposed future work includes saw-cutting two approximately 3-square foot rectangular openings in the existing manhole lid and installing sections of fiberglass grating with rubber mats attached at one end over each hole to allow effluent and water to discharge through the top of the manhole during high river flows. The existing metal manhole cover will also be replaced with fiberglass grating. Manhole reconfiguration is expected to reduce backwater effects, head loss, and the need for effluent pumping during high river flows. No changes in outfall configuration or effluent quantity are proposed at this time.

**B. Proposed Work.**

State has not authorized Grantee to conduct any Work on the Easement Property. Grantee shall obtain State's prior written consent before conducting any Work pursuant to Section 7.3 of this Easement and obtain all necessary regulatory permits for such Work.

**2. ADDITIONAL OBLIGATIONS**

State has not authorized Grantee to conduct any Work on the Easement Property. Where Work will need to be conducted to meet the Additional Obligations below, Grantee shall obtain State's prior written consent in accordance with Section 7.3 of this Easement and obtain all necessary regulatory permits prior to commencing such Work.

- A.** At the time of application to renew the NPDES Permit, or every five (5) years, whichever is first, Grantee shall submit to State a report addressing progress to reduce discharges on state-owned aquatic land and associated biological communities. "Progress" means Grantee is analyzing or developing alternative treatment and/or disposal methods including, but not limited to, (1) reduction of inflow and infiltration; (2) groundwater recharge; (3) stream augmentation,

industrial process supply, and/or agricultural application; (4) water conservation programs; (5) other water re-use projects; (6) low impact development; and (7) stormwater treatment processes.

- B.** National Pollutant Discharge Elimination System (NPDES) permit
- i. The NPDES Permit start date is February 1, 2019, and requires renewal in accordance with WAC 173-220-180.
  - ii. Grantee shall notify State when they contact the Washington State Department of Ecology to apply or renew a National Pollutant Discharge Elimination System (NPDES) permit.
  - iii. Grantee shall notify State of any proposed changes/additions/deletions to the NPDES permit and allow State a reasonable period to comment.
  - iv. Grantee shall submit to State all NPDES Outfall Evaluation Reports.
