

I. APPLICATION DOCUMENTS AND/OR INFORMATION

This checklist has been designed to provide a brief overview of the City's submittal requirements for all written documentation. Please note that applications missing one or more of the items listed are considered incomplete and may delay the permit review process. Please **initial** each box under the Applicant heading on the checklist to confirm that items are included in your submittal. Staff will check off each box when the item is confirmed to be included in the submittal package.

This checklist is not intended to replace a Pre-Application Review meeting and letter when required. While this checklist is intended to assist with your submittal, it remains your responsibility to comply with all applicable codes including, but not limited to, North Bend Municipal Code, Revised Code Washington (RCW), Washington Administrative Code (WAC), King County Surface Water Design Manual (KCWSDM), as well as all utility providers.
