

Conserve Water

In 2019, Cascade Mountains was a Low Snowpack Year and Snoqualmie River is currently low. Please do your part to conserve water usage to benefit the River.

Tips to Save Water Indoors

- Fix leaks promptly. Little drips can waste lots of water.
- Install “water displacement devices” in your toilet tank if you have an older model toilet.
- Replace older toilets. Newer toilets use only 1.5 gallons of water to flush.
- Replace your showerhead with a low flow model.
- Capture shower warm-up water. Use it to water plants, wash the floor or car.
- Turn off the faucet while brushing teeth or shaving.
- Keep a bottle of drinking water in your refrigerator. Running tap water until it is cold enough to drink wastes water.
- Wash only full loads in the dishwasher and washing machines.
- In restaurants, accept water only if you want it. Not only will you save the water you don’t drink, you will also save the water to wash the glass.

Water landscapes and yards only after 7 p.m. or before 10 a.m. to avoid excessive evaporation loss.
